This right is for the maintenance of the lake elevation at 2126.5 feet above MSL for the power head at the Post Falls middle channel dam to generate power under Right Nos. 95-4518 and 95-8003. The period of use for power storage begins each year when the lake elevation stabilizes at or near 2128 feet above MSL following the spring runoff. The 2126.5 foot elevation is maintained until all of the water stored for power purposes under Right No. 95-9119 has been released each fall. The water stored under this right is then released for generating power.

Storing water in Coeur d Alene Lake under this right and Right No. 95-9119 is to maintain the surface elevation of the lake at or near 2128 feet above MSL from the time when the lake elevation stabilizes at or near 2128 feet above MSL after spring runoff until the first Tuesday after Labor Day.

Power generation is at the Post Falls Power Plant.

Section 42-1412(6), Idaho Code.

This right is conditioned upon completion of the appropriation in accordance with the statutory procedure for appropriation of water rights. This right remains subject to all conditions set forth in the permit upon which this right is based, and will be subject to all conditions set forth in the license issued by IDWR upon completion of the statutory appropriation process.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Permit

When notified by the Department, the right holder shall install and maintain a measuring device of a type acceptable to the Department as part of the diverting works.

Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.

Prior to the diversion and use of water under this approval, the right holder shall comply with applicable water quality monitoring and/or permitting requirements administered by the Department of Environmental Quality or the Department of Agriculture.

Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.

PLACE OF USE:

Place of use is within the service area of the City of Rathdrum municipal water supply system as provided for under Idaho Law.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This right authorizes the diversion of ground water within the Rathdrum Prairie Ground Water Management Area (RPGWMA). Use of water under this right shall be subject to the provisions of the RPGWMA management plan approved by the director, including its conservation goals.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - License

Failure of the right holder to comply with the conditions of Transfer No. 81271 is cause for the Director to rescind approval of the transfer.

When notified by the Department, the right holder shall record the quantity of water diverted and annually report diversions of water and/or other pertinent hydrologic and system information as required by Section 42-701, Idaho Code, and/or the management plan for the Rathdrum Prairie Ground Water Management Area.

When notified by the Department, the right holder shall install and maintain a measuring device of a type acceptable to the Department as part of the diverting works.

This right is a split from former right 95-2155.

The right holder shall accomplish the change authorized by Transfer No. 81271 by December 16, 2017.

Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
